**(a)(3)(c) "The agency's report shall be approved by the agency head and made readily available to the public through its website..."**

## Introduction

The State of Nevada is committed to preventing, detecting, and responding to sexual abuse and sexual harassment in confinement. The Nevada Department of Corrections (NDOC or agency) has a zero-tolerance policy for sexual abuse and sexual harassment in all its confinement facilities. The report is an overview of agency and facility aggregated data, and corrective action as it pertains to the Prison Rape Elimination Act.

## Background

The Prison Rape Elimination Act (PREA) was signed into Federal law in September 2003. The purpose of the Act was to “provide for the analysis of the incidence and effects of prison rape in Federal, State, and local institutions and to provide information, resources, and recommendations to protect individuals from prison rape. PREA, also, mandated the publication of standards to ensure compliance and improve detection and response strategies in addressing sexual abuse and assault.

The final rule for PREA was published in the Federal Register on June 20, 2012, and became effective August 20, 2012. Facilities had one year to become compliant with PREA standards.

The PREA standards require annual audits of one-third of the facilities under an agency’s jurisdiction along with the Governor’s certification of statewide compliance in all facilities under the operational control of the state’s executive branch, including private facilities operated on behalf of the executive branch to house inmates. A failure to comply with standards will result in a loss of 5 percent (5%) of identified Federal grant funding.

## Governor Certification

Each Governor is required to annually certify statewide PREA compliance for all applicable “...facilities in the State under the operational control of the State’s Executive branch, including Facilities operated by private entities on behalf of the State’s Executive branch. (Standard 115.501).

Three options are provided to Governors:

- Certification that the state and all applicable facilities are in full compliance with the National Standards to Prevent, Detect, and Respond to Prison Rape, 28 C.F.R. Part 115;
- Assurance that the state/jurisdiction will use not less than 5 percent (5%) of grant funds as identified by the Department of Justice to enable the state/jurisdiction to adopt and achieve full compliance with the National Standards to Prevent, Detect, and Respond to Prison Rape, 28 C.F.R. Part 115; or
- Decisions on the part of the Governor not to certify compliance or provide an assurance that the state/jurisdiction is moving toward compliance.

### Warm Springs Correctional Center

The Warm Springs Correctional Center (WSSC) was authorized by, and constructed through, appropriations from the 1961 Legislative Session and was known as the Nevada Women’s Correctional Center until September 1997. It was converted to a medium-security men’s prison in 1998, then to a minimum-custody facility in July 2003. The institution has been remodeled and expanded four times over the past 47 years. A second housing unit was added in 1979, and a third in 1987. The core services building, which houses food services, health care services, education facilities, and the gymnasium, was added in 1981. The 1995 and 1997 Legislatures authorized a fourth housing unit, two towers, a new security fence, additional classrooms, and completely remodeled the kitchen, dining room, and entrance building. The completion of this project in July 1998 (funded in part with Federal monies) brought the budgeted capacity of WSSC from 260 to 510 inmates. In July 2008, WSSC was converted back to a men’s medium-custody institution.
