^a The NDOC must be able to identify offenders that fall in various age categories to determine the applicability of laws and regulations that are specific to the individual's actual age. Thus, Beginning with Fiscal Year 2016, age groups no longer encompass ages that are rounded down or up. The change in methodology may have caused a small shift in the frequencies that fall in each group relative to former editions of this report.

Data Limitations:

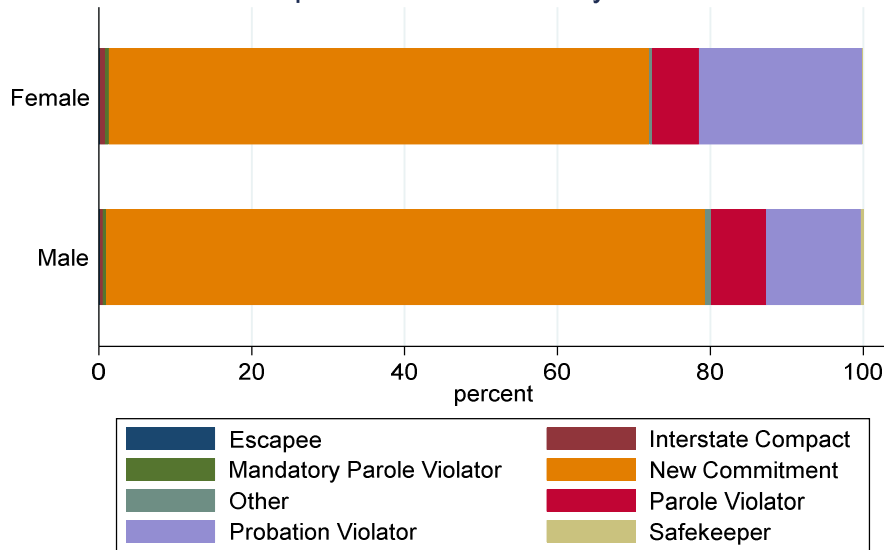

Data published in this report were extracted from a live database; thus, it is possible that figures reported in tables and charts do not balance to totals reported in other reports published by the Nevada Department of Corrections (NDOC). Select distributions consist of estimates and are susceptible to rounding error and missing data that could have caused these distributions not to add up to exactly 100%. Current fiscal year data for the NDOC or for other agencies are not always available at time of edition; consequently, the NDOC performed its best effort to align data accordingly to derived estimates.

Unless specified, figures in this report are retrieved from the Nevada Department of Corrections InfoView data warehouse and from the Nevada Department of Corrections Offender Tracking System (NOTIS).

^a The figures in this table represent the distribution of offenders by gender and the most serious active offense being served during the reporting period. The most serious offense is determined by a hierarchical method applied by the NDOC that consists of grouping offenses committed by the offender as per the severity of the offenses.

^b Active offense served is not applicable for safekeepers from external jurisdictions or on escape status.

This table lists the correctional sites that have experienced escapes, walkaways, or recaptures only. A negative balance means that during the reporting month the correctional site recaptured offenders that escaped in previous reporting periods.

For statistical purposes, it is assumed that the inmate is returned to the location from where he or she escaped or walked away, although inmates are recaptured by law enforcement and then re-admitted to an NDOC intake center.

^a The prison population inclusive of residential confinement inmates, escapees, prisoners serving a sentence out of state, or intermediate sanction.

^b The in-house prison population consists of all inmates housed at an NDOC correctional location, and prisoners temporarily housed at a jail or admitted to a hospital.

^c Offenders admitted to the NDOC during the current biennium. The caseload is inclusive of offenders admitted to the parole housing program.

^d Offenders released from the NDOC during the current biennium. The caseloads include offenders released to the Parole Housing Program, and then released to the community.

^e Prisoner population forecasts derived by the JFA Institute/JFA Associates and approved by the Legislature for the current biennium.

^f The actual prison population, inclusive of individuals within NDOC's jurisdiction housed in private facilities.

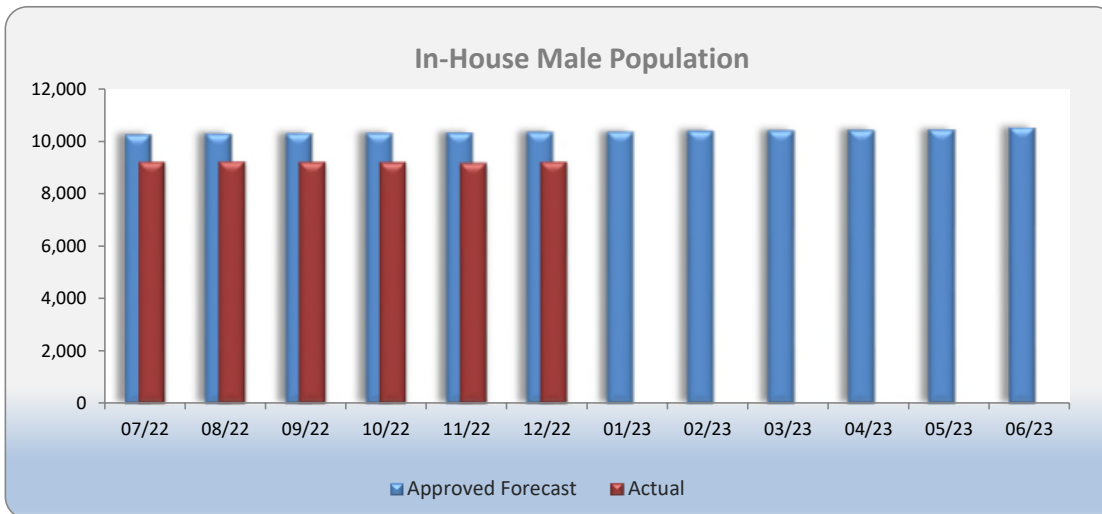

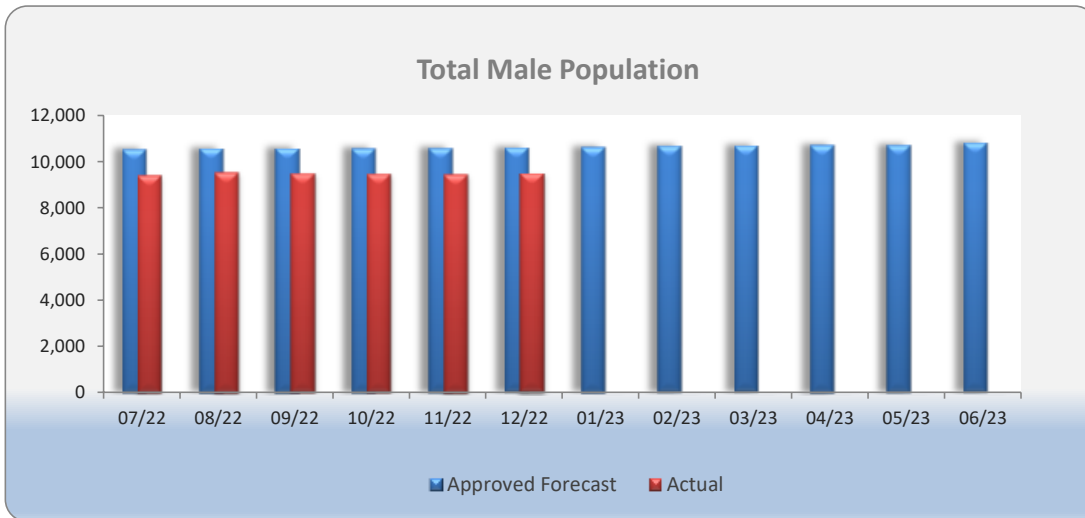

^g The Mean Squared Error is the average of the squared differences between the actual and forecasted counts. The Root Mean Squared Error is the squared root of the Mean Squared Errors.

^h The Root Mean Squared Error as percent of the actual average-to-date is a measure of prediction.

^g Note: Casa Grande Transition House offers a program for individuals that are granted parole, are authorized to work in the community, and for whom housing arrangements in the community are pending. During State Fiscal Year, 106 inmates were transferred from a housing location within NDOC to the Parole Housing Unit. The Parole Housing Program, however, was phased out in the summer of 2020.

^h Beginning in November 2018, 100- 200 private prison beds were rented while the NDOC was awaiting the completion of retrofitting projects. The contract ended November 2019.

^a The prison population inclusive of residential confinement inmates, escapees, prisoners serving a sentence out of state, and intermediate sanction offenders.

^b The in-house prison population consists of all inmates housed at an NDOC correctional location, and prisoners temporarily housed at a jail or admitted to a hospital, and inmates in the intermediate sanction program.

^c Offenders admitted to the NDOC during the current biennium.

^d Offenders released from the NDOC during the current biennium.

^e Prisoner population forecasts derived by the JFA Institute.

^f The actual prison population of the NDOC.

^g The Root Mean Squared Error is the squared root of the average of the squared differences between the actual and the forecast observations.

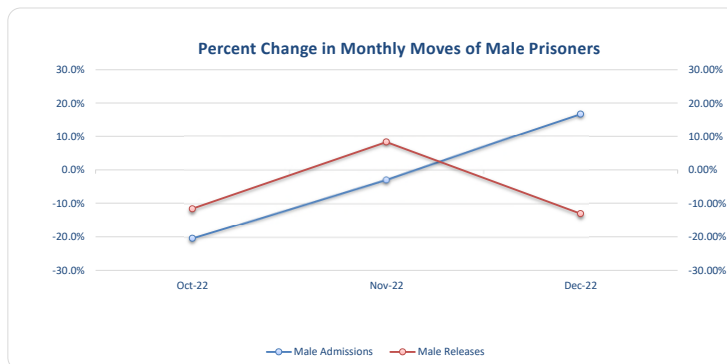

^h The Root Mean Square Error as percentage of the actual average to date is a measure of prediction.

ⁱ Note: Casa Grande Transition House provides temporary housing for inmates that are granted parole, are authorized to work in the community, and for whom housing arrangements in the community are pending. During State Fiscal Year 2020, 61 females were admitted to the program. This program, however, was phased out in the summer of 2020.

Summary of Macroeconomic and Employment Indicators

- Unemployment slightly increased in quarter 4, rising to 4.75% from 4.40% in quarter 3. This comes after a long period of decreasing unemployment. However, unemployment still remains below its level from quarter 4 of 2021, and even quarter 2 of 2022.
- Per Capita income has increased from \$60,186 in quarter 2 of 2022 to \$61,506 in quarter 3. This is after a period of relative stagnation, with per capita income hovering around \$59,500 for several previous quarters.
- Protective service occupations is a large occupational group that encompasses various sub-groups, such as police officers, firefighters, animal control workers, correctional officers employed by various industries and public sector, and first-line supervisors in the group.
- It is estimated that during Calendar Year 2021, in Nevada 44,476 workers will be employed in protective service occupations across all industries who earn a mean wage of \$23.26 per hour or \$48,370 per year. This occupational group is projected to reach 46,350 by the end of CY2028, an increase of 4.21%. The estimate for correctional officers and jailers and first-line supervisors of this subgroup for this calendar year was revised downward from 3,114 to 2,809. The most current earnings data available is as of May 2020, reflects that correctional officers and jailers earn a mean hourly wage of \$31.33 and an annual salary of \$58,340, both above the US hourly wage of \$26.01 and yearly salary of \$54,115 for the correctional and jail officer group.
- As of December 30, 2022, the Nevada Department of Corrections was authorized for 1045 non-custody and 1874 custody full-time equivalent personnel.
- On December 30, 2022, 738 non-security and 1264 security positions were filled by NDOC. Both non-security and security personnel positions are below permitted levels. There has been continued difficulty hiring and retaining all personnel due to retirements, departures of recruits and current staff for other positions, and other personal reasons.
