^a Beginning with Fiscal Year 2016, Cuban nationals were grouped with Hispanics.

^b The NDOC must be able to identify offenders that fall in various age categories to determine the applicability of laws and regulations that are specific to the individual's actual age. Thus, Beginning with Fiscal Year 2016, age groups no longer encompass ages that are rounded down or up. The change in methodology may have caused a small shift in the frequencies that fall in each group relative to former editions of this report.

Data Limitations:

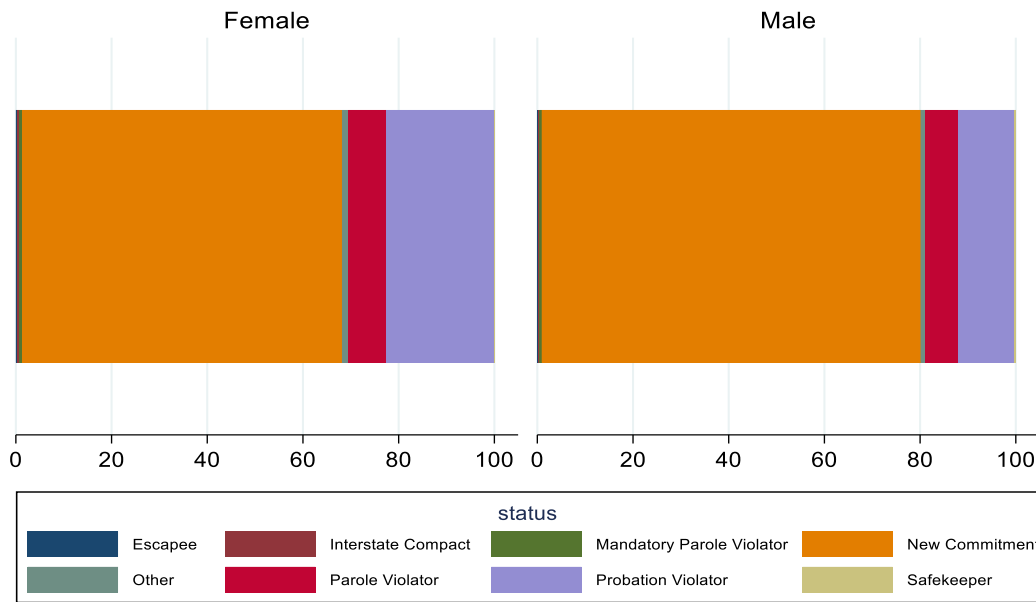

Data published in this report were extracted from a live database; thus, it is possible that figures reported in tables and charts do not balance to totals reported in other reports published by the Nevada Department of Corrections (NDOC). Select distributions consist of estimates and are susceptible to rounding error and missing data that could have caused these distributions not to add up to exactly 100%. Current fiscal year data for the NDOC or for other agencies are not always available at time of edition; consequently, the NDOC performed its best effort to align data accordingly to derived estimates.

Unless specified, figures in this report are retrieved from the Nevada Department of Corrections InfoView data warehouse and from the Nevada Department of Corrections Offender Tracking System (NOTIS).

Imprisonment Statuses and Counties of Conviction for the Total Population

^a The figures in this table represent the distribution of offenders by gender and the most serious active offense being served during the reporting period. The most serious offense is determined by a hierarchical method applied by the NDOC that consists of grouping offenses committed by the offender as per the severity of the offenses.

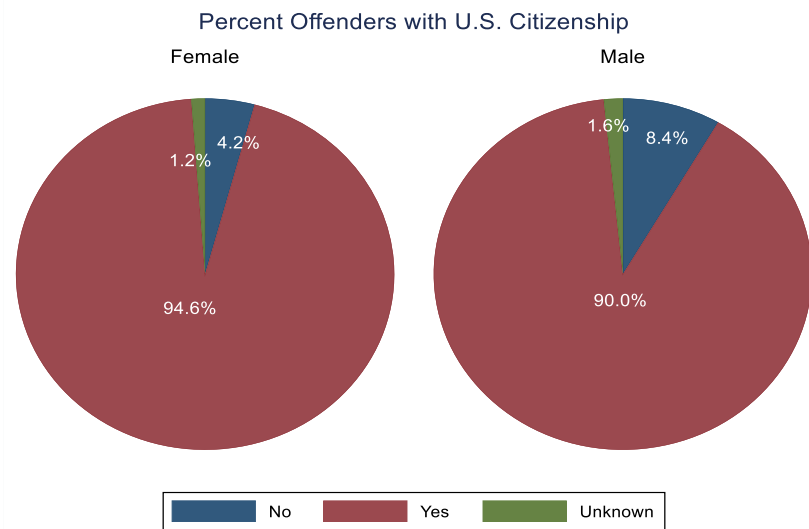

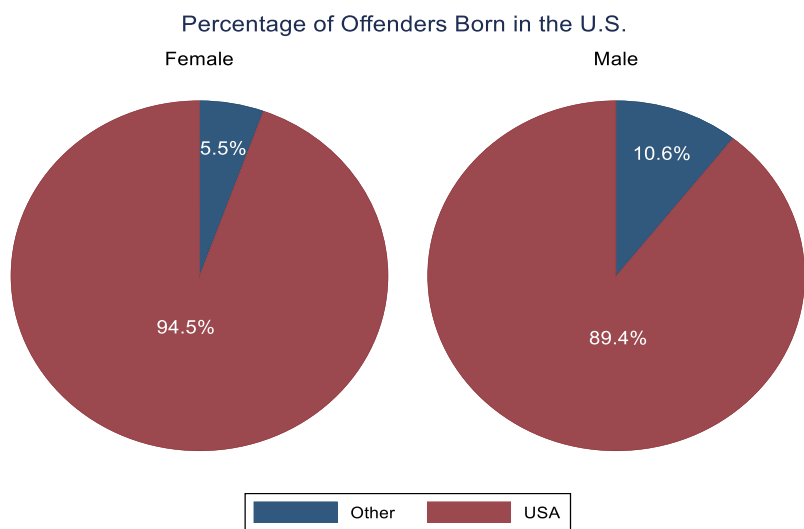

^b Active offense served is not applicable for safekeepers from external jurisdictions or on escape status.

^a Between November 2017 and November 2020, the NDOC contracted private prison beds to house its excess population temporarily. The custody distribution displayed in this report includes 100 to 200 individuals housed in a private facility during that period. Custody distribution series are maintained for master planning purposes and were entered into forecasting models that assumed that these prisoners were returning to Nevada facilities after the end of the contract period.

^a This table lists the correctional sites that have experienced escapes, walkaways, or recaptures only. A negative balance means that during the reporting month the correctional site recaptured offenders that escaped in previous reporting periods.

^b For statistical purposes, it is assumed that the inmate is returned to the location from where he or she escaped or walked away, although inmates are recaptured by law enforcement and then re-admitted to an NDOC intake center.

Escape to Population Ratios

| Month | In-House Population | Escapes/ Walkaways | Rate per 10,000 Inmates |

^a The prison population inclusive of residential confinement inmates, escapees, prisoners serving a sentence out of state, or intermediate sanction.

^b The in-house prison population consists of all inmates housed at an NDOC correctional location, and prisoners temporarily housed at a jail or admitted to a hospital.

^c Offenders admitted to the NDOC during the current biennium. The caseload is inclusive of offenders admitted to the parole housing program.

^d Offenders released from the NDOC during the current biennium. The caseloads include offenders released to the Parole Housing Program, and then released to the community.

^e Prisoner population forecasts derived by the JFA Institute/JFA Associates and approved by the Legislature for the current biennium.

^f The actual prison population, inclusive of individuals within NDOC's jurisdiction housed in private facilities.

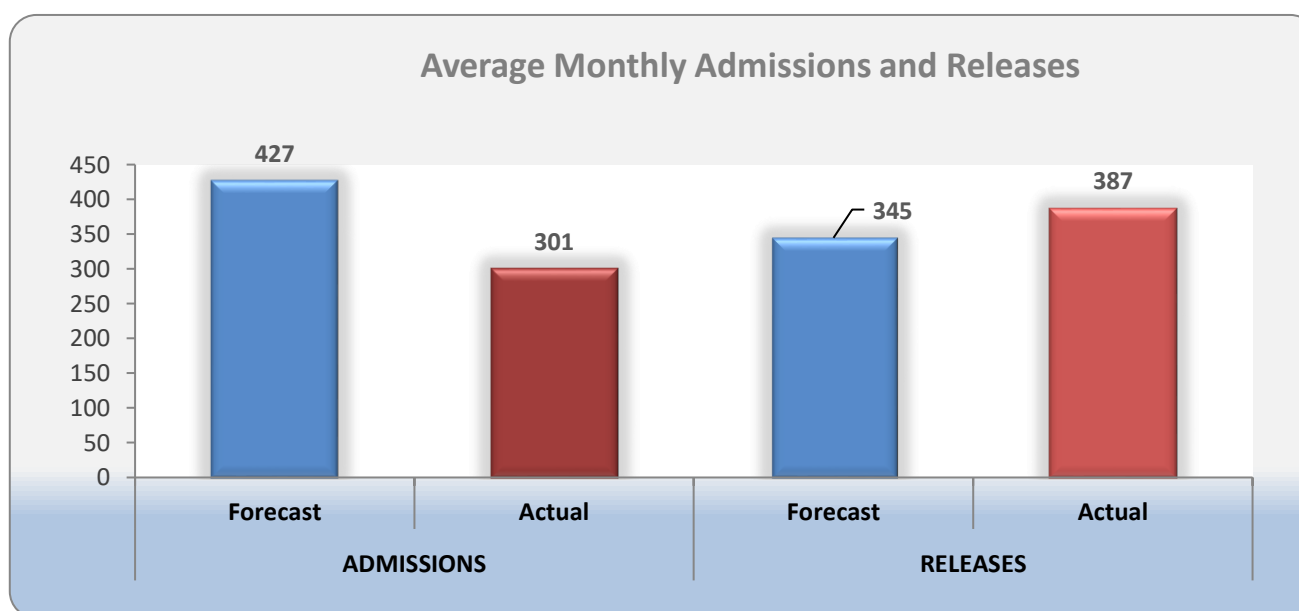

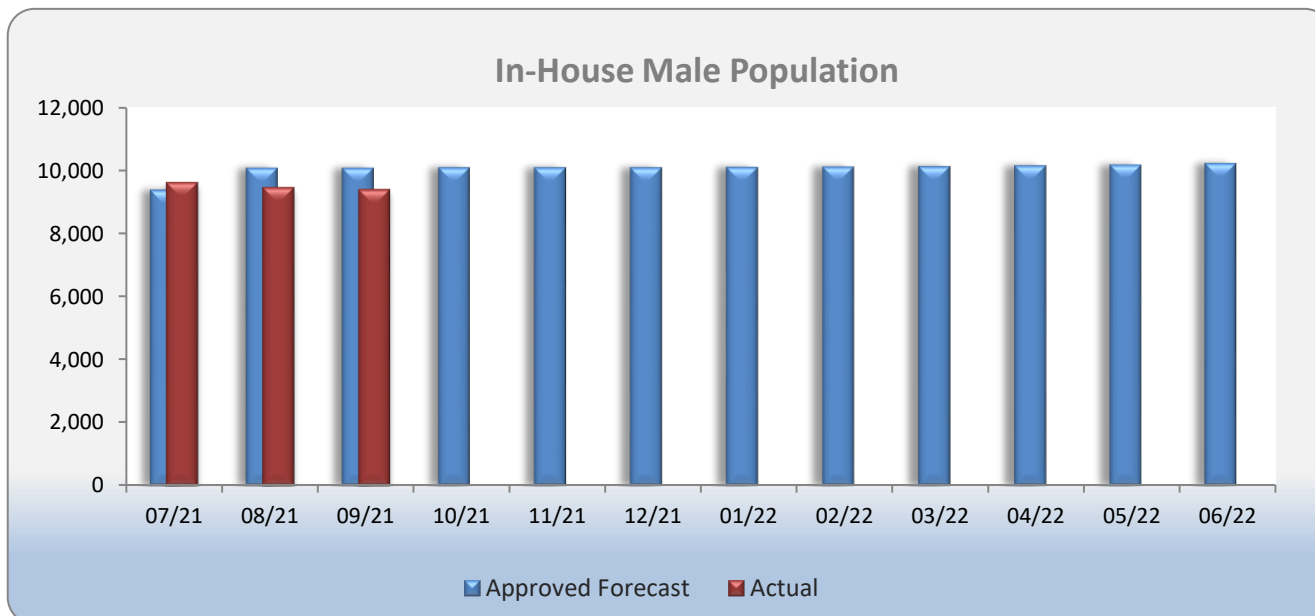

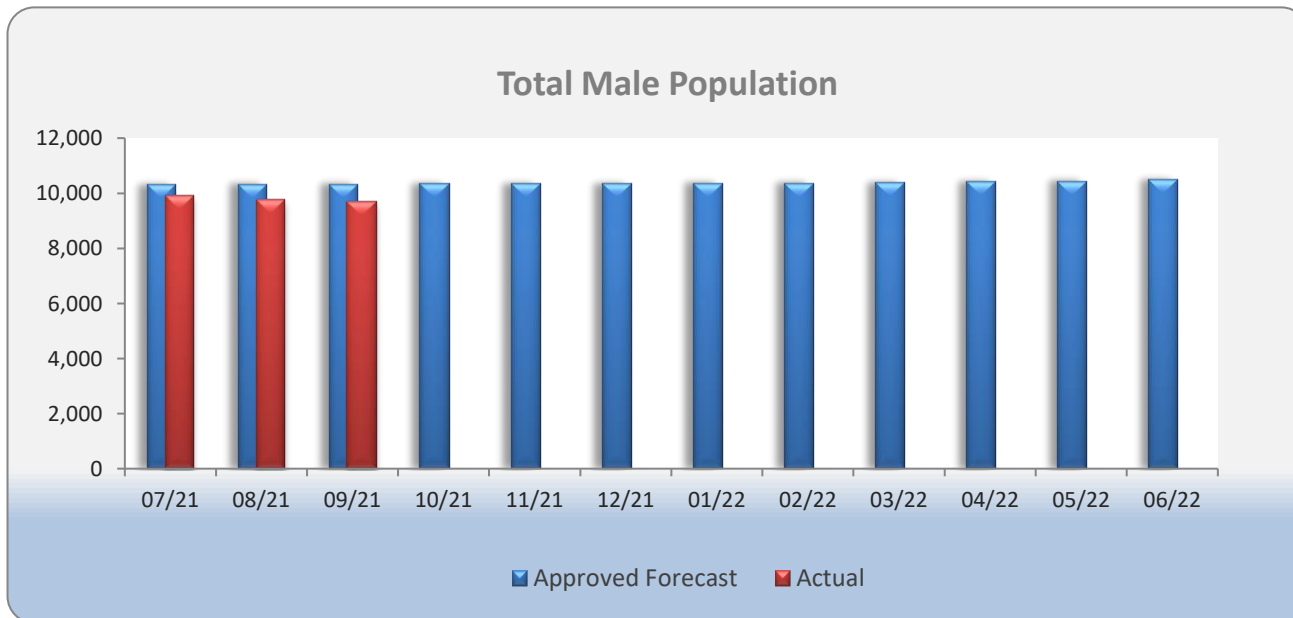

^g The Mean Squared Error is the average of the squared differences between the actual and forecasted counts. The Root Mean Squared Error is the squared root of the Mean Squared Errors.

^h The Root Mean Squared Error as percent of the actual average-to-date is a measure of prediction.

^g Note: Casa Grande Transition House offers a program for individuals that are granted parole, are authorized to work in the community, and for whom housing arrangements in the community are pending. During State Fiscal Year, 106 inmates were transferred from a housing location within NDOC to the Parole Housing Unit. The Parole Housing Program, however, was phased out in the summer of 2020.

^h Beginning in November 2018, 100- 200 private prison beds were rented while the NDOC was awaiting the completion of retrofitting projects. The contract ended November 2019.

Summary of Macroeconomic and Employment Indicators

- Unemployment continued to improve by declining from a seasonally adjusted rate of 8.1% at the end of the first quarter to 7.8% by the end of the second quarter of Calendar Year 2021 and to 7.5% by the thirdquarter. The seasonally adjusted rate was still 3.8 percentage points above the impressive pre-pandemic rate of 3.7%.
- Per-capita income during the second quarter of CY 2021 in Nevada increased \$3,345 or 6.65% relative to the fourth quarter of CY 2020.
- Protective service occupations is a large occupational group that encompasses various sub-groups, such as police officers, firefighters, animal control workers, correctional officers employed by various industries and public sector, and first-line supervisors in the group.
- It is estimated that during Calendar Year 2021, in Nevada 44,476 workers will be employed in protective service occupations across all industries who earn a mean wage of \$23.26 per hour or \$48,370 per year. This occupational group is projected to reach 46,350 by the end of CY2028, an increase of 4.21%. The estimate for correctional officers and jailers and first-line supervisors of this subgroup for this calendar year was revised downward from 3,114 to 2,809. The most current earnings data available is as of May 2020, reflects that correctional officers and jailers earn a mean hourly wage of \$31.33 and an annual salary of \$58,340, both above the US hourly wage of \$26.01 and yearly salary of \$54,115 for the correctional and jail officer group.
- For Fiscal Year 2022, which began in July 2021, the Nevada Legislature authorized 890 non-custody and 1,865 custody full-time positions, a decrease of 20 custody and 45 non-custody positions from Fiscal Year 2021. The decrease in funded positions is associated with a significantly lower prison population.
- At the end of September 2021, 1,549 security and 841 non-security positions were filled by NDOC. Filled positions have been below budgeted positions for various reasons, such as the ability to recruit officers in remote areas of the state, retirements, and the effect of the COVID-19 pandemic which resulted in labor shortages.
