Press Release

For Immediate Release:
August 17, 2017

The Nevada Department of Corrections (NDOC) is actively preparing for the scheduled execution of Scott Raymond Dozier, 46, which was recently ordered by the Eighth Judicial District Court. Dozier was sentenced to death after a first-degree murder conviction for the 2002 killing and dismemberment of Jeremiah Miller, 22. Miller's dismembered torso was found in a suitcase that had been dumped in a trash bin at the 8100 block of West Flamingo Road, Las Vegas, NV. During the course of their investigation, police uncovered another victim of Dozier who was dismembered and buried in the Arizona desert. Dozier was found guilty of second-degree murder in that case.

NRS 176.355 states the judgement of death must be inflicted by an injection of a lethal drug. After consulting with the Chief Medical Officer, the NDOC Director has selected the following combination of drugs for the execution:

1. Diazepam
2. Fentanyl
3. Cisatracurium

The Department is prepared to carry out the court order. The execution is currently scheduled to take place on November 14, 2017, at 8:00 PM at the Ely State Prison in Ely, Nevada.

The Nevada Department of Corrections is committed to building a safer community by striving to incorporate progressive best practices in all aspects of corrections. NDOC houses nearly 14,000 persons with felony convictions in 18 facilities statewide. For more information visit www.doc.nv.gov.
