<b>Total</b>	1,833 13.04%	453 3.22%	621 4.42%	2,706 19.26%	2,320 16.51%	6,120 43.55%	14,053 100.00%

<sup>a</sup> Beginning with Fiscal Year 2016, Cuban nationals are grouped with Hispanics.

<sup>b</sup> The NDOC must be able to identify offenders that fall in various age categories to determine the applicability of laws and regulations that are specific to the individual's actual age. Thus, Beginning with Fiscal Year 2016, age groups no longer encompass ages that are rounded down or up. The change in the methodology is expected to cause a small shift in the frequencies that fall in each group relative to former editions of this report.

<sup>c</sup> The figures in this table represent the distribution of offenders by gender and highest offense across bookings with the NDOC. The highest offense is determined by a hierarchical method applied by the NDOC that consists of grouping instant offenses committed by the offender as per the severity of the offenses. Offenders are placed in the offense group that pertains to the most severe instant offense that he or she has committed.

**Data Limitations:**

Data published in this report were extracted from a live database; thus, it is possible that figures reported in tables and charts do not balance to totals reported in other reports published by the Nevada Department of Corrections (NDOC). Select distributions consist of estimates and are susceptible to rounding error and missing data that could have caused these distributions not to add up to exactly 100%. Current fiscal year data for the NDOC or for other agencies are not always available at time of edition; consequently, the NDOC performed its best effort to align data accordingly to derived estimates.

Unless specified, figures in this report are retrieved from the Nevada Department of Corrections InfoView data warehouse and from the Nevada Department of Corrections Offender Tracking System (NOTIS).

**Distribution of Offenders by Ethnicity  
In-House Population as of September 30, 2017  
Exempt of Temporary Inmate Counts in Jails or Hospital**

<sup>a</sup> This table lists the correctional sites that have experienced escapes, walkaways, or recaptures only. A negative balance means that during the reporting month there were offenders recaptured but no escapes.

<sup>b</sup> A negative balance represents an escape or walkaway in an earlier month/fiscal year and a recapture during the current month/fiscal year.

<sup>c</sup> For statistical purposes, it is assumed that the inmate is returned to the location from her or she escaped or walked ways.

## Female Population Comparison 2017-2019 Biennium

# 10-YEAR POPULATION FORECASTS APPROVED BY THE NEVADA LEGISLATURE DURING THE 2017 SESSION<sup>a</sup>

<sup>a</sup> The 2017 Nevada Legislature approved a ten-year prison population forecast to be applied to the Biennium planning model for the period July 2017 to June 2027. The forecast assumes that up to 200 inmates will be outsourced to another state and up to 357 parolees will be reporting to a day center. The out-of-state contract will reduce the in-house population without affecting the total population. Contracts to outsource beds are approved on a year-by-year basis.

### Ten-Year Population Forecast Analysis

Legislature Approved (June 30, 2017-June 20, 2027)			
Institutional Population <sup>a</sup>	Males	Females	Total
Ten-year Average	13,334	1,353	14,694
Numeric Change	1,873	127	2,000
Ten-year Percent Change	15.02%	4.26%	14.53%
Average Annual Percent Change	1.42%	0.94%	1.37%

Non-institutional Population <sup>b</sup>	Males (%)	Females (%)
120-Month Average	2.21	4.08

### Emergency and Above Capacity Beds and Population Density

Operating Indicators <sup>c</sup>	9/30/2017	6/30/2017
Base Structure	9,583	9,583
Emergency Threshold	n/a	n/a
Emergency and Above	14,314	14,134
In-House Population	13,679	13,768
Total Population	14,053	14,117
In-house Population/Emergency Threshold and Above Emergency	95.56%	97.41%

Incarceration Rates (2015)	
Incarceration Rate (all inmates) <sup>d</sup>	462.93
Incarceration Rate (felony inmates) <sup>e</sup>	444.00

### Fiscal Indicators<sup>f</sup>

Annual Costs (Fiscal Year 2018)	
Minimum Security	\$12,556
Medium/Close/Maximum Security	15,940
Medical	3,334
Correctional Programs	567
Administration	2,452
Total Cost	\$21,513

### Summary of Macroeconomic and Employment Indicators

Protective service occupations is a large occupational group that encompasses various sub-groups, such as police officers, firefighters, animal control workers, and correctional officers.

In CY 2016, Nevada employed, on the average, 41,050 workers in protective service positions in the public sector. The number of workers in this occupation is expected to increase to 48,284 by the end of Calendar Year 2018. The estimated number of individuals employed as correctional officers and jailers in Nevada in CY 2016 was 1,590, and this number is expected to increase to 2,907 by the end of 2018 and to 2,985 by 2024. Protective service workers in Nevada earned, on the average, \$16.09 per hour, while these workers earned \$18.59 in the U.S. as a whole. The difference translated in an annual salary that was \$5,200 lower than the national.

The hourly wage rate in Nevada was not necessarily lower for each occupation within the protective service class, however. Correctional officers and jailers in Nevada earned slightly more ( \$0.98 per hour) than the U.S. as a whole. The difference in the hourly wage translated into an annual salary that was \$2,030 above the national for correctional officers and jailers.

The employment outlook for Nevada, as a whole, continued to look positive towards the end of CY 2017. In September, the unemployment rate was 4.9%. This improvement translated into an additional 17,061 labor units in the workforce during the first three quarters of 2017 when adjusted for the effect of seasonality. The size of the civilian labor force also increased by 19,009 individuals during the first three quarters.

A new fiscal year began in July of 2017 for the State of Nevada. NDOC 's FTE data are maintained on a fiscal year basis, given that the Nevada Legislature approves biennial budgets in June of each odd number year for the subsequent biennial cycle. For Fiscal Year 2018, which encompasses the period July 1st, 2017 to June 30, 2018, the Legislature authorized 999 non custody and 1,879 custody staff, inclusive of FTE positions not funded by the State's General Fund. The approved number is favorable relative to the former biennium with 15 additional positions being approved. The number of positions authorized by the Legislature for each fiscal year, however, stays constant unless special circumstances require adjustments. Relative to the fourth quarter of Fiscal Year 2017, the first quarter of Fiscal Year 2018 realized an increase of 11 custody and 5 non-custody staff. The total FTE increment was 16. Fluctuation from quarter to quarter is expected; thus, counts increase and decrease through the fiscal year due to factors such as career progression, turnover, or retirement.

Nevada Macroeconomic Indicators	CY2017	CY2016	CY2015	CY2014
Labor Force (end of reporting period, civilian) <sup>f</sup>	1,451,447	1,434,386	1,420,938	1,404,168
Employment (end of reporting period, seasonally adjusted) <sup>f</sup>	1,379,683	1,360,674	1,331,513	1,301,935

Rape	▲ 4.90%	▲ 4.90%	

Summary of Indicators

\*Nevada's population rate of growth declined from 2.32% in 2010 to less than 1.0% in 2011. Beginning in 2012 the rate of growth has been gradually trending upwards from 1.26% to 1.71% in 2014 and by 1.82% in 2015, a rate that has been more than twice the growth in the U.S. Nevada's population continued to grow in 2016, but at a slower rate of 1.70%, while the U.S. population increased by only .70%.

\*According to the Uniform Crime Reporting Program figures released by the FBI, crime rates for violent crime, murder and manslaughter, larceny, and motor vehicle increased at a faster rate in Nevada than in the U.S. during 2016. The U.S. as whole experienced decreased rates in burglary, property crime, and larceny.

\*During 2016 murder and manslaughter crime had the largest increase with the rate in Nevada jumping by 25.84 % relative to 2015 and by 9.90% in all of the U.S. Motor vehicle offenses had the second largest increase with the rate going up by 16.11 % in Nevada and the U.S. rate going up by approximately half as much (8.16%).

Text in color denotes that the figures were adjusted to reflect the FBI's most current rates since the past edition of this report.

<sup>c</sup> Cases resulting from the events of September 11, 2001 are not included.

<sup>d</sup> Original definition.

<sup>e</sup> Revised definition.

Note: population figures utilized by the FBI are U.S. Census Bureau provisional estimates as of July 1 for each year except 2000 and 2010, which are decennial census counts. U.S. Census Bureau annual estimates are for the resident population for the United States, regions, states, and Puerto Rico.
