STATE OF NEVADA
BOARD OF PRISON COMMISSIONERS

Board of Prison Commissioners Meeting
Tuesday, May 16, 2017

MINUTES

The Board of Prison Commissioners held a public meeting on Tuesday, May 16th, 2017.

The meeting began at approximately 9:00 AM at the following locations:

Meeting Location:	Old Assembly Chambers State Capitol Building 2nd floor 101 N. Carson Street Carson City, NV	Video Conference:	Grant Sawyer State Office Building Room 5100 555 East Washington Ave. Las Vegas, NV 89101
--------------------------	---	--------------------------	--

1. Call to Order

Action: The meeting was called to order by Governor Brian Sandoval. The Governor stated that Attorney General Laxalt would not be in attendance.

Attendance: Governor Brian Sandoval; Secretary of State Barbara Cegavske;

Department Attendees: James Dzurenda - Director; Quentin Byrne - Deputy Director;
John Borrowman - Deputy Director Support Services; David Tristan - Deputy Director Programs;
Brian Connett - Deputy Director Prison Industries.

Public: Refer to [Item 1 Exhibit](#)

2. Public Comment.

Paul G. Corrado asked the Board to appoint an intern to do a report on what jobs recently released ex-felons can and cannot do per statutes. Felons are disqualified from certain jobs. Mr. Corrado asked who the Board's customers are. Is it the people of the state of Nevada who will be victimized if we do not do a good job with reentry or is it the people who are incarcerated? He wanted to know how the inmates could provide feedback to the Board. He would like to know who he could get feedback from on this issue. Governor Sandoval said this issue is topical and legislature is considering felons ability to work in certain professions. He said it is part of one of his pieces of legislation in regards to workforce investment. There is also legislation regarding information that employers request during the hiring process in regards to felons. ([Item 2a Exhibit](#))

Mercedes Maharis said she had a letter to submit to the Governor. She said the prior VERA Institute report recommendations had not been fulfilled regarding solitary confinement. She said she is concerned it may take five years for the implementation of recommendations of the new VERA report. Ms. Maharis said solitary confinement does not work and is damaging to the body and mind. She said it is too big of a risk to wait for the final report. Ms. Maharis discussed amendment 402. She suggests a committee for disciplinary hearings including a mental health staff, a caseworker and an officer who is unfamiliar with the prisoner. She said there should be more than one person making the decision of how long an inmate should serve solitary confinement. ([Item 2b Exhibit](#))

Philip Lyons said he is a former inmate until 2 years ago. He said he has a proposed amendment to 402. He discussed that in administrative segregation you lose your level status which then you may lose your job and your programming as well. He said then you have to start over. Mr. Lyons said NDOC officers should have to sign that the charges against the inmate are true. He said the hearing officers need to be better trained. He went on to discuss the level system stating that it is not working and is used as a disciplinary tool. He said a person should not lose level status due to being transferred, they should keep the level status they obtained. He also explained that when new inmates come into the system they are started at the lowest level and he believes that is backwards and they should start at level one.

William Clarke said he is a former correctional officer and he worked with Mercedes Maharis on an inmate death list. He stated that the NDOC keeps the list a secret. He said there is a pattern in the death list that they construe as medical indifference. (*Item 2c Exhibit*) Please note the inmate death list is available to the public on the NDOC website and has been since approximately 2007. Click on ABOUT and Inmate Mortality Statistics are listed under statistics: <http://doc.nv.gov/About/Statistics/Home/>.

3. Acceptance and Approval of Minutes – March 7th, 2017 meeting. For Possible Action.

Action: Secretary of State motioned to approve the Minutes and the Acceptance and Approval of Minutes was passed unanimously with no changes.

4. Discussion of Capacity Analysis – James Dzurenda, Director - For Discussion Only.

Director Dzurenda said that NDOC revised the bed capacity analysis that NDOC recently sent to the legislature because there was a misunderstanding regarding what can and cannot be used as a cell on the NDOC Bed Capacity Analysis Report. For example NDOC cannot house a male in a female's cell bed; NDOC cannot house a healthy inmate into a medical cell bed. In the prior Bed Capacity Analysis Reports all beds regardless of the type of inmate that they were designed for or whether they were male or female beds counted as usable beds for all inmates. Areas that were not designed for housing because these areas did not have toilets, showers, or drinking fountains were identified as possible housing options.

Deputy Director Tristan discussed how the NDOC is overcapacity and gave examples of the percentages of inmate overcrowding at several prisons. For example Ely state Prison (ESP) is at 150% capacity as they have had to double cell some of the inmates even though ESP is a Maximum/Close Custody prison. Lovelock Correctional Center (LCC) is at 189% capacity as they have not only double-celled but they have also utilized activity rooms which would normally be used for programming. State Public Works has advised NDOC that NDOC may not have occupancy permits for all the locations where inmates are housed due to overcrowding. He explained that programming space cannot all be used to house inmates as they may lose grant money for the programs that they need the space for. Governor Sandoval asked when this analysis was completed and Deputy Director Tristan said that this particular spreadsheet was completed approximately 2 weeks ago. Director Dzurenda explained that the inmate population increased more than what was projected by JFA. He said the unpredicted increase had happened after the Governor's Budget was sent out several months ago. Director explained that seriously mentally ill inmates were moved out of segregation units at ESP and moved to NNCC consolidating higher custody level Seriously Mentally Ill (SMI) inmates to where clinical staff is available to provide them services. Director Dzurenda said the more treatment oriented veterans unit at Warm Springs is very successful and he's looking for other targeted benefits and programming. Additionally, there is a new veterans unit at HDSP. The Department of Veterans Services provided two positions, one for the North and one for the South, to coordinate services in the prisons and in the community to incarcerated veterans. These positions have been of tremendous assistance to incarcerated veterans in NDOC.

5. Vivitrol – Pilot Kick Off – James Dzurenda, Director - For Discussion Only.

Director Dzurenda said the Vivitrol program began on April 1st. He explained that Vivitrol is a program of 6 months of medicated treatment that curbs addiction. NDOC has asked for inmate 100 volunteers that are Medicaid eligible. They will be tracked, and signed up with Medicaid at no cost to the state. NDOC staff is

working on continuity of care by coordinating with Nevada HOPES and Ridge House for assisted treatment upon release in northern Nevada. They are working with Doctor DiMuro and Stephanie Woodard on continued care in southern Nevada upon release as well. Director Dzurenda said he spoke with other states DOCs such as Pennsylvania and Louisiana, and they said that their recidivism was reduced. Vivitrol is \$1,800 per shot to be administered every 30 days. After 6 months there is a long-term effect so the shot would be given much less frequently. (*Item 5 Exhibit*)

6. Discussion of VERA Institute of Justice Grant - Safe Alternatives to Segregation Initiative (SAS Initiative). – James Dzurenda, Director - For Discussion Only.

VERA awarded the Department a technical assistant grant to audit, evaluate and analyze segregation policies and procedures, and provide corrective actions and recommendations for future initiatives to ensure compliance with federal regulations and best practices. VERA staff will be evaluating all three shifts without management present to see how well staff is handling current policy improvements. Director Dzurenda said he will receive the final report from VERA this year. NDOC has written new Administrative Regulations (AR's) which are compliant with the Department of Justice's 53 guiding principles. The amount of inmates in segregation will be significantly reduced which will open bed capacity. Governor Sandoval asked if NDOC is following best practices in the United States. Director Dzurenda explained the American Correctional Association (ACA) guiding principles are considered best practices in the United States. He explained that the Department of Justice is more advanced with higher standards and more beneficial for inmates and that is what the NDOC is striving to implement. Sarah Solomon of the VERA Institute explained that the NDOC was selected through a competitive selection process in which five states were chosen to participate. She said this is a six to nine month data assessment process. She explained that the ACA's policy new improved standards and that work in this area is still evolving. Governor Sandoval clarified that Nevada is not trying to meet the minimum ACA standards but is striving to be the best in the country with maximum improvement by following the Department of Justice's principles. It was explained that VERA's evaluation process is done in real time, meaning as recommendations for improvements are put forth, they are implemented as quickly as possible. Secretary of state Cegavske asked what VERA stands for and it was explained that VERA is the name of the founders' mother, not an acronym.

7. Presentation and Discussion of Report of Chief Medical Officer pursuant to NRS 209.382-Dr. John DiMuro, Chief Medical Officer or his designee. For Discussion Only. (*Item 7 Exhibit*) Doctor DiMuro was not present. Governor Sandoval said he reviewed the report. Director Dzurenda confirmed that the dietary breakdown of inmate menus is posted at each facility for inmates review.

8. Administrative Regulations – James Dzurenda, Director. For Possible Action.

Director Dzurenda provided an overview of changes to the administrative regulations, with a focus of improving safety for both staff and inmates. Administrative Regulations considered:

- AR 105 Development of Institutional Operational Procedures
- AR 115 Departmental Tobacco Product Prohibition
- AR 316 Employee Transfers
- AR 337 Staff Requirements for Home Address and Personal Telephone Number
- AR 404 Emergency Situations
- AR 432 Transportation of Inmates for Medical Treatment
- AR 450 Preventing, Apprehending and Reporting of Escapes
- AR 502 Youthful Offender Classification
- AR 543 Transition Centers
- AR 552 Intra-Departmental Transfers
- AR 606 Use of Inmate Workers in Health Care
- AR 617 Inmate Sick Call
- AR 621 Infectious Diseases

AR 707 Inmate Disciplinary Process
AR 733 Disciplinary Segregation
AR 752 Vehicle Operation by Inmates
AR 830 Recreational Activities
AR 853 Workplace Health Requirements
AR 854 Prison Industrial Programs

AR's 707, AR 733, AR 752 were pulled out for discussion. The rest of the AR's had technical changes made to be consistent with the law. All were reviewed by NDOC staff and the Attorney General's office. Director Dzurenda explained that AR's 707 and 733 added additional tours to segregation areas. Governor Sandoval asked for clarification of what safe keepers are. Director Dzurenda explained these are inmates that the city jail system could not manage so they send them to the NDOC. There is a difference between safe keepers and interstate compacts. Grant and Policy Administrator Sheila Lambert said that she is working on a glossary for the AR's.

AR 707 Inmate Disciplinary Process - it was clarified that on a single incident an inmate can only be charged with one charge; the most serious one. (This is as opposed to stacking several different Notice of Charges (NOC) for just one incident.)

AR 733 Disciplinary Segregation - Director Dzurenda explained that they are tracking data points to see what disciplines are working and what are not. He said the former system was not compliant with ACA standards; however, the new system is.

AR 752 Vehicle Operation By Inmates - Director Dzurenda explained the vehicles in question are forklifts, gators, and lawnmowers at the facilities. He also explained that this updated AR allows inmates working minimum-security in the community to utilize these types of vehicles. This AR also allows the use of training on heavy equipment. All inmates must be OSHA certified before they may use the equipment.

Action: The Board approved all of the regulations. [Link to AR section will be added](#)

9. Public Comment

Mercedes Maharis said she is asking for all prisoners wrongly placed in segregation to be reviewed; and asked Governor Sandoval to spend 3 hours in a segregation unit.

10. Adjournment

From: Mr. Paul G. Corrado, OWDS
4100 Meadow Wood Road
Carson City, NV 89703

Subject: Disqualifications Resulting from Conviction/ Reduce Recidivism

Dear Members of the Board,

I have tried to identify the answers to these questions involving who is responsible for over a year, presenting this request to this Board and the previous administration of the Nevada Department of Corrections. I am obviously doing something wrong.

So I appeal to you all to tell me what I need to do to rectify my error. I know this is not the forum for that response, so I ask you to please help me assist those soon to be released, with what laws apply to them as ex-felons.

Based on this supposition, can you please answer the following:

1. What occupational bars ex-felons may face upon returning to society here in Nevada?
2. What restrictions are there with respect to the licensing of individuals with criminal records in certain occupations here in Nevada?
3. Whether the state of Nevada has laws that limit what employers may ask job applicants, and if so, what are they?
4. What are the current protections against employment discrimination based on a criminal record?
5. How long do any of these restrictions apply?

Attached is a list from the Nevada Revised Statutes (2015) that catalogues disqualifications resulting from conviction. It took me over 6 months to get it. Two pages attached.

I sent this list to a colleague who works with recently release ex-felons on a daily basis. This was her reply, "I am trying to find out WHICH convictions are disqualified from these careers. Because, for instance I know several drug and alcohol counselors who are convicted felons. Typically after a 7-year window they eventually qualify for those positions, its not clear how to search how those NRS codes can be used effectively."

I believe your reply to this inquiry shall be of significant benefit to those involved in the hiring/employment process here in Nevada, and contribute positively to a reduction in the rate of recidivism. Looking forward to your reply, I am,

Respectfully yours,

Paul G. Corrado

Paul G. Corrado, OWDS

16 May 2017

Honorable NV Prison Commissioners:

1) Why haven't the Vera Institute recommendations provided in their NV 2010 NDOC action plan report been adopted, completed yet? Why do we ask for help and not follow through?

2) I have been receiving solitary confinement report conditions from prisoners in NDOC for far too long . Years ago, when I walked into Unit 8 at Indian Springs, my life changed forever.

The experience of seeing human beings locked down in that noise was both shocking and frightening. To think that we are paying for such primitive conditions is incomprehensible.

So, why are we still supporting and practicing this disabling, dangerous, deadly practice?

3) I invite you to screen my new film, The Hole, a docudrama about solitary confinement.

4) 24 hours is plenty long enough for adults to be shut away... Not 72 hours or 3 days... If we lock ourselves in our bathroom for only 3 hours, we can understand.

5) Forensic psychiatrist Dr. Terry Kupers testified before the NV ACAJ committee years ago about the need to eliminate keeping prisoners in isolation. Still no action to stop it?

6) We need all licensed psychologists in NDOC, and more psychiatrists. We need to provide private sessions, ending the practice of psychologists standing outside doors talking to prisoners since others can hear what is being said. Psychology is private and personal, isn't it? They are unable to bare their souls and get help with this practice.

7) How many of our prisoners are living in all forms of segregation, shut away, in our prisons and for how long? How many have died in NDOC like this? Dr. Kupers said half of our deaths occur in isolation when he spoke? What is the current number? Please give this disabled population your helping hand by making an AR today that will stop solitary confinement in NDOC, not in 3 to 5 years after the new Vera report and DOJ review. If this is not done, I predict that there will be more unnecessary deaths. The verdict is out already, solitary is inhumane.

7) I remain hopeful that reason can prevail and that you can provide relief for all involved in solitary confinement, including officers who are placed at risk because prisoners' damaged nervous systems in isolation cause them to lose the ability to self-regulate.

In closing, only our sincere connections to others can lift us up so that we can be successful in life, to be able to hold jobs and to pay taxes, to be of benefit to self and to others... to become real human beings.

Thank you.

The Nevada Department of Prisons / Corrections "Death List" 1905-2017

The History and Creation of The Death List

The list never existed until Mercedes Maharis over the years gathered information with the help of Nevada State Senator Richard S. "Tick" Segerblom and Craig Hoffecker from the Legislative Counsel Bureau in Carson City of Nevada.

William Mark Clarke has continued with the list by tracking the local news media as well as checking the Nevada Department of Corrections web site. The list is the "known" prisoners that have died in the custody of the Nevada Department of Prisons and Corrections.

Created by Mercedes Maharis, MA MS MA, a prisoners right advocate.
Maintained by William Mark Clarke, Nevada corrections officer. (Retired)

Nevada Department of Corrections
Vivitrol Summary
Given to Director Dzurenda

- Finalized the agreements and medical protocols with the Medical, Operations and Substance Abuse Program staff at NDOC, to start the Vivitrol project on April 7th
- Project is being piloted at Warm Springs Correctional Center in the North; and Southern Desert Correctional Center in the south
- The initial pilot project will include one-hundred injections for free at each of the two facilities.
- NDOC will be reporting on the progress and recidivism rates to determine the success rate of the program to report to the Governor's Office.
- NDOC staff has been working on continuity of care issues since January, and was able to coordinate linkages with Nevada HOPES and Ridge House for medicated assisted treatment injections upon release in northern Nevada.
- NDOC has reached out to Medicaid regarding southern Nevada, but there have been some care challenges with the managed care organizations not approving the injections, but fee-for-service is approving injections.
- There are some future discussions planned to see if NDOC inmates can be part of the Care Management Organization.
- In addition, NDOC staff has reached out to the Department of Health and Human Services to determine if there are any opportunities to support inmates with Opioid addictions with the new State Grant. We are working with Stephanie Woodard to determine what opportunities would exist.
- We are also working with Dr. Dimuro and Stephanie Woodard on the continuity of care issues and Dr. Dimuro is meeting some community partners the week of May 16th – and Sheila Lambert from NDOC will be available to assist in linking the two programs.

MEMORANDUM

DATE: May 8, 2017
TO: Board of Prison Commissioners
FROM: John DiMuro, DO, MBA, Nevada Chief Medical Officer
RE: CMO Report to the Board of Prison Commissioners for the May 16, 2017 meeting

Since my last presentation to the Board of Prison Commissioners on March 7, 2017, I respectfully submit the following report to the Board. I continue to remain in constant contact with DAG Linda Anderson, NDOC compliance officer Alexander Archie and Vincent Valiente, REHS, Environmental Health Specialist III, in order to ensure expediency in responding to any issues within the prison system.

Section I: New Issues:

- a) **NDOC Vivitrol® Pilot Program:** This program was implemented the first week of April 2017 and is being coordinated between Alkermes Pharmaceuticals through NDOC director James Dzurenda, Deputy Director David Tristan, and Management Analyst IV Sheila Lambert and remains a partnership with both Parole and Probation and the Parole Board. As mentioned in my last report, we are targeting one hundred inmates at both Warm Springs Correctional Facility in Carson City and Southern Desert Correctional Center in Las Vegas. Due to my concerns over the possibility of inadequate patient follow-up upon release from the correctional facility, I had requested a meeting with both Medicaid and Dr. Stephanie Woodard, the DHHS Senior Advisor on Behavioral Health. This meeting led to a phone conference last Friday with all of the managed care organizations who will now be responsible for maintenance of the inmates upon their release. We have been assured there will be appropriate continuity of care to the inmate upon their release. I will be following up on the results over the next few months.

Section II: Dietary Update

a) **Lovelock Dietary Issues with Inmate Robert Stockmeier:** DAG Linda Anderson recently filed a declaration on my behalf with the Court in response to the Judge's query from our last meeting. This document outlines, once again, the nutritional adequacy of the prison diet including addressing Mr. Stockmeier's concerns about the high sodium content of the diet. As I stated to the Court previously, sodium is a necessary dietary nutrient and a quantified amount does not reflect nor correlate with the relative needs of an individual. We continue to defend our position regarding compliance with *NRS 209.382* demonstrated within the written report filed at the November 2016 Board meeting.

b) **Lovelock Dietary Concerns:**

- 1) After reporting about a 41-page written correspondence to me from two inmates at the Lovelock facility and responding to those inmates in writing, no further correspondence has been received from either of the inmates and no new issues have resulted.
- 2) I was recently informed by the DOC that inmates now have access to the nutritional values of their meals in the facility law library. DOC plans on posting nutritional values at all prisons this year.

Section III: Environmental Health Specialist Report Update from V. Valiente, REHS, EHS III

- a) **Environmental Health Inspection Status:** All seven state prisons are slated to receive a full environmental health inspection and dietary inspection this calendar year.
- b) **Medical Surveys:** Per protocol, two of the seven state prisons are slated to receive full medical surveys this calendar year.

Section IV: Conclusion

To my knowledge, we remain in compliance with all relevant NRS. We are continuing to address the inmate complaints at the Lovelock facility as outlined above and will keep the Board updated with any status changes. The Division is excited about the implementation of the Vivitrol® Pilot Program last month and have already discussed the continuity of care concerns with both Medicaid and the managed care entities that will be assuming care for those in the Vivitrol® study upon their release from custody. We will continue to maintain communication with the DOC contacts as well as the representatives from Alkermes Pharmaceuticals throughout the program.

Additionally, I am happy to report that upon my request from the last 2016 BOP commissioners meeting, the DOC has begun public posting of the nutritional values for the prison meals. I have verified that this has been implemented at the Lovelock facility and will be following up regarding their position to post meal nutritional values at all prisons this year.
