NV Department of Corrections

The Prison Rape Elimination Act (PREA) requires that the Department review collected data related to PREA for each institution and facility "...in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices and training..." The data collected should include identifying problem areas and identifying the on-going corrective action taken by the Department and each of its facilities and institutions.

In conjunction with PREA standard §115.88:

Substandard (a)(3), the Department shall also "...prepare an annual report of its findings and corrective actions for each facility, as well as the agency as a whole.

(a)(3)(b) "Such report shall include a comparison of the current year's data and corrective actions with those from prior years and shall provide an assessment of the [Department's] progress in addressing sexual abuse.

(a)(3)(c) "The Department's report shall be approved by the [Department] head and made readily available to the public through its website..."

This report is intended to provide information and comparison for calendar year 2013 compared to the data collected for calendar year 2012 for the agency and each of its institutions and facilities along with information about accomplishments to date during calendar year 2013.

The final rule for PREA was published in the Federal Register on June 20, 2012, and became effective August 20, 2012. The standard that governs external audits provides that the first three year audit cycle begins on August 20, 2013. The final Audit Compliance Tool was officially released in final form during the middle part of calendar years 2014. Thus the Department began its preparations in earnest towards compliance late calendar year 2013 then on-going during calendar year 2014, a list of findings and corrective actions will be documented for the department and each of its institutions and facilities in the next annual report.
