^a Beginning with Fiscal Year 2016, Cuban nationals are grouped with Hispanics.

^b The NDOC must be able to identify offenders that fall in various age categories to determine the applicability of laws and regulations that are specific to the individual's actual age. Thus, Beginning with Fiscal Year 2016, age groups no longer encompass ages that are rounded down or up. The change in the methodology is expected to cause a small shift in the frequencies that fall in each group relative to former editions of this report.

^c The figures in this table represent the distribution of offenders by gender and highest offense across bookings with the NDOC. The highest offense is determined by a hierarchical method applied by the NDOC that consists of grouping instant offenses committed by the offender as per the severity of the offenses. Offenders are placed in the offense group that pertains to the most severe instant offense that he or she has committed.

Data Limitations:

Data published in this report were extracted from a live database; thus, it is possible that figures reported in tables and charts do not balance to totals reported in other reports published by the Nevada Department of Corrections (NDOC). Select distributions consist of estimates and are susceptible to rounding error and missing data that could have caused these distributions not to add up to exactly 100%. Current fiscal year data for the NDOC or for other agencies are not always available at time of edition; consequently, the NDOC performed its best effort to align data accordingly to derived estimates.

Unless specified, figures in this report are retrieved from the Nevada Department of Corrections InfoView data warehouse and from the Nevada Department of Corrections Offender Tracking System (NOTIS).

^a Trend changes from 2013 to 2014 are due to a system wide bed custody realignment.

^b The distributions for quarters ending December 2014 and March 2015 were estimated by applying the custody of each unit and wing at each correctional site to the in-house inmate population.

Custody Distributions

By the end of the first quarter of Fiscal Year 2016, minimum and medium custody decreased by 1.67% and 4.35% respectively and close custody went upwards by 9.74%. During the second quarter close custody declined by 4% and medium custody increased by 2.72% relative to the fourth quarter in Fiscal Year 2015. Minimum custody only declined by .06%. The change in close custody is, in part, attributed to the methodology utilized to account for inmates in administrative segregation. Thus, in the third quarter, close custody declines further to 27.04% from 28.17% in Fiscal Year 2015, and medium custody increases back to 57.60%. Declining rates in minimum and close custody are reversed in the fourth quarter with minimum custody increasing by 2.54% and close custody by 6.36%; in turn, medium custody falls by 3.66%

The first few months of Fiscal Year 2016, a change of trend took place with minimum and close custody increasing by 11.92% and 40.64% respectively and medium custody decreasing by 10.75%. During the second quarter, medium custody increased by .055% and close custody declined by .145%. Minimum custody declined slightly, just .04%. During the third quarter, minimum custody increased back by 4%, medium decreased 5.9%, and close custody increased by 20.4%. In the fourth quarter, the opposite change in direction was seen, with minimum and close custody declining by 4.8% and 17.4%, respectively; and with the share of medium custody individuals increasing by 6.8%.

Year-over-year change in male inmates increased at an increasing rate from June 2012 to the end of June 2016, on the average. During Fiscal Year 2012, the male population increased by 65 inmates, during Fiscal Year 2013 by 35 inmates, during Fiscal Year 2014 by 92, and during Fiscal Year 2015 by 133. Specifically, from the third first quarter of Fiscal Year 2015 nothing but positive change was seen in the male population, as an additional 506 male inmates joined the population. This sharp increase is reflected in the figures above where the moving average curve points upwards from August 2015 to June 2016, and rises at above average levels in November 2015.

Quarterly Analysis

Fiscal Year	FY 2013				FY 2014				FY 2015				FY 2016			
Quarter	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
Change	44	-34	26	-22	23	26	-3	13	10	19	14	24	-6	64	16	29
% Change	4.29%	-3.18%	2.50%	-2.07%	2.21%	2.44%	-0.27%	1.19%	0.91%	1.71%	1.24%	2.10%	-0.51%	5.51%	1.31%	2.33%

Year-to-year change of the female population was positive from the beginning of Fiscal Year 2013 to the end of Fiscal Year 2015. Growth was progressive with the female caseload increasing by 17 women during Fiscal Year 2013, 59 in Fiscal Year 2014, and 67 in Fiscal Year 2015. A small portion of this growth was offset by a decline of 6 females during the first quarter of Fiscal Year 2016. However, the decrease was more than offset by an increase of 109 during the last three quarters. Both, Fiscal Years 2015 and 2016 experienced increases above average in the total female population. As shown in the charts above, the population went steadily upwards in the fall of 2015 as 146 females joined the total prison population.

Summary of Macroeconomic and Employment Indicators

Protective service occupations is a large occupational group that encompasses various sub-groups, such as police officers, firefighters, animal control workers, and correctional officers.

Nevada is employing, on the average, 37,781 workers in protective service positions. The number of workers in this occupation is expected to increase to 40,617 by the end of Calendar Year 2017.

The estimated number of individuals employed as correctional officers and jailers in Nevada is 2,309, and this number is expected to increase to 2,376 by the end of 2017 and to 2,990 by 2024.

All protective services workers combined in Nevada earn \$15.98 per hour while these workers earn \$18.14 in the U.S. as a whole. The difference translates in an annual salary that is \$4,490 lower than the national.

The hourly wage rate in Nevada is not necessarily lower for each occupation within the protective service class, however.

Correctional officers and jailers in Nevada earn \$4.61 more per hour than the U.S. as a whole. The difference in the hourly wage translates into an annual salary that is \$9,600 above the national for correctional officers and jailers.

During the third quarter of Fiscal Year 2016, the NDOC lost 3 security and 9 non security positions in its workforce. Small fluctuation from quarter to quarter is due to various factors, such as attrition. The number of authorized positions is constant throughout the fiscal year unless additional FTEs are funded by the Legislature.

Overall, the employment outlook for Nevada has improved further relative to the second quarter of this fiscal year with 8,175 additional individuals being employed, and the unemployment rate declining from 6.30% to 5.80%.

Summary of Indicators

Nevada Summary--2016		U.S. Summary -- 2016	
Population	▲ 1.82%	▲ 0.80%	
Violent Crime	▲ 11.49%	▲ 2.77%	
Murder & Manslaughter	▲ 4.71%	▲ 10.16%	
Forcible Rape	▲ 69.65%	▲ 47.60%	
Robbery	▲ 5.59%	▲ 0.48%	
Aggravated Assault	▲ 13.26%	▲ 3.12%	
Property Crime	▲ 3.49%	▼ -3.43%	
Burglary	▲ 1.97%	▼ -8.69%	
Larceny	▲ 2.36%	▼ -2.60%	
Motor Vehicle	▲ 11.45%	▲ 2.64%	
Rape	▼ -8.77%	▼ -22.68%	

*Nevada's population's rate of growth declined from 2.32% in 2010 to less than 1% in 2011. Beginning in 2012 the rate of growth has been gradually trending upwards from 1.26% to 1.71% in 2014 and grew by 1.82% in 2015, a rate that has been more than twice the growth in the U.S.

*According to Uniform Crime Reporting Program figures released by the FBI, crime rates in all categories, except for murder and manslaughter, increased faster in Nevada than in the U.S. during 2015. The U.S. as whole experienced decreased crime rates in property, burglary, larceny.

*Forcible rape had the largest increase with the rate in Nevada jumping by 69.65% relative to 2014 and by 47.60% in all of the U.S. Aggravated assault had the second largest increase with the rate going up by 13.26%, and violent crime had the third largest increase of 11.49%.

^a <http://www.fbi.gov/stats-services/crimestats>; rates are per 100,000 persons, Tables 1 and 5. All figures were updated in December 2015.
^b Rate per 100,000 persons.
^c Population figures are U.S. Census Bureau provisional estimates as of July 1 for each year published by the FBI.
U.S. Census Bureau Annual Estimates are for the Resident Population for the United States, Regions, States, and Puerto Rico: April 1, 2010 to July 1, 2014.
