<sup>1</sup> The total population "base" forecast was derived by the JFA Institute in October 2022. The "base" forecast was derived assuming that discretionary and mandatory parole release rates would fall, future new commitments will have the same composition as those in 2022, a continuing rebound of admissions post-COVID-19 c  
<sup>2</sup> The total population minus the population on escape, residential confinement, or serving sentences out of state on interstate compact programs equals in the in-house population. The forecast for these counts assume that the effect of the COVID-19 Pandemic will decelerate and select house arrest programs will contin  
<sup>3</sup> The outcount is forecast by the NDOC.  
<sup>4</sup> The outcount for the male population does not include individuals housed in contracted private facilities outside the Nevada prison system, given that contracts ended October 2020.  
<sup>5</sup> The shaded regions were derived from actual figures.
