Data Limitations:

Data published in this report were extracted from a live database; thus, it is possible that figures reported in tables and chart do not balance to totals reported in other reports published by the Department of Corrections. Select distributions consist of estimates and are susceptible to rounding error and missing data which could have caused these distributions not to add up to exactly 100%. Current fiscal year data for the NDOC or for other agencies are not always available at time of edition; consequently, the NDOC performed its best effort to align data accordingly to derive estimates.

	12,301	214	12,515
TOTAL	98.29%	1.71%	100.00%

^a Beginning March 2007, minimum custody is comprised of community assignment and minimum custodies, and close custody comprises unassigned, close, and maximum custodies. The former method excluded inmates that had not been assigned to a custody on the query run date.

on the query run date.

^b The in-house populations by gender don't balance to the actual in-house populations reported in Report 1.1 dated as the last day of the month given that SKI, SKC, and SKF inmates are excluded from the distribution.

<sup>The prison population inclusive of residential confinement immates, escapees, and prisoners serving a sentence out of state.

The in-house prison population consists of all immates housed at an NDOC correctional location, and prisoners temporarily housed at a jail or admitted to a hospital.

Offenders admitted to the NDOC during the current biennium.

Prisoner population forecasts derived by the LFA Institute/IFA Associates.

The actual prison population of the NDOC exclusive of intermediate sanction offenders temporarily housed at CGTH. These offenders were not factored into the forecasts.

The Rotule na Squared Error is the squared root of the average of the squared differences between the actual and the forecast observations.

The Rott Mean Squared Error as percentage of the actual average to date is a measure of prediction.</sup>

IME INDICATORS AND THE ECONOMY

Population isn't growing as rapidly as in 2007 and crime rates are declining.

This factor is believed to be the result of, among other factors, declining birth rates, a higher unemployed population staying at home hindering thieves and other crime activity, or residents moving to other states to seek other work opportunities.

The Nevada Department of Corrections offers several educational and vocational programs and work opportunities for its offender population with the intent of providing them gainful skills while incarcerated and upon release.

he The performance of the economy, mass layoffs, and the lack of work opportunities could potentially have an impact on ex-offenders who are seeking work opportunities, and, in turn, lead to higher recidivism.
