- The ages represent the mean and 50th percentiles for the total population as of the date of the fact sheet and for the cumulative number of individuals admitted and released during the fiscal year.
- The distribution of total incarcerated individuals by sentence length category and long-term sentence type is retrieved from Report OMDSLB generated by Nevada Offender Tracking Information System (NOTIS).

*Note: the figures presented in this report involve estimates derived from datasets extracted from NDOC's data warehouse as of midnight of the date of this fact sheet; thus, select counts may not match to numbers derived from reports produced by other software applications.
