

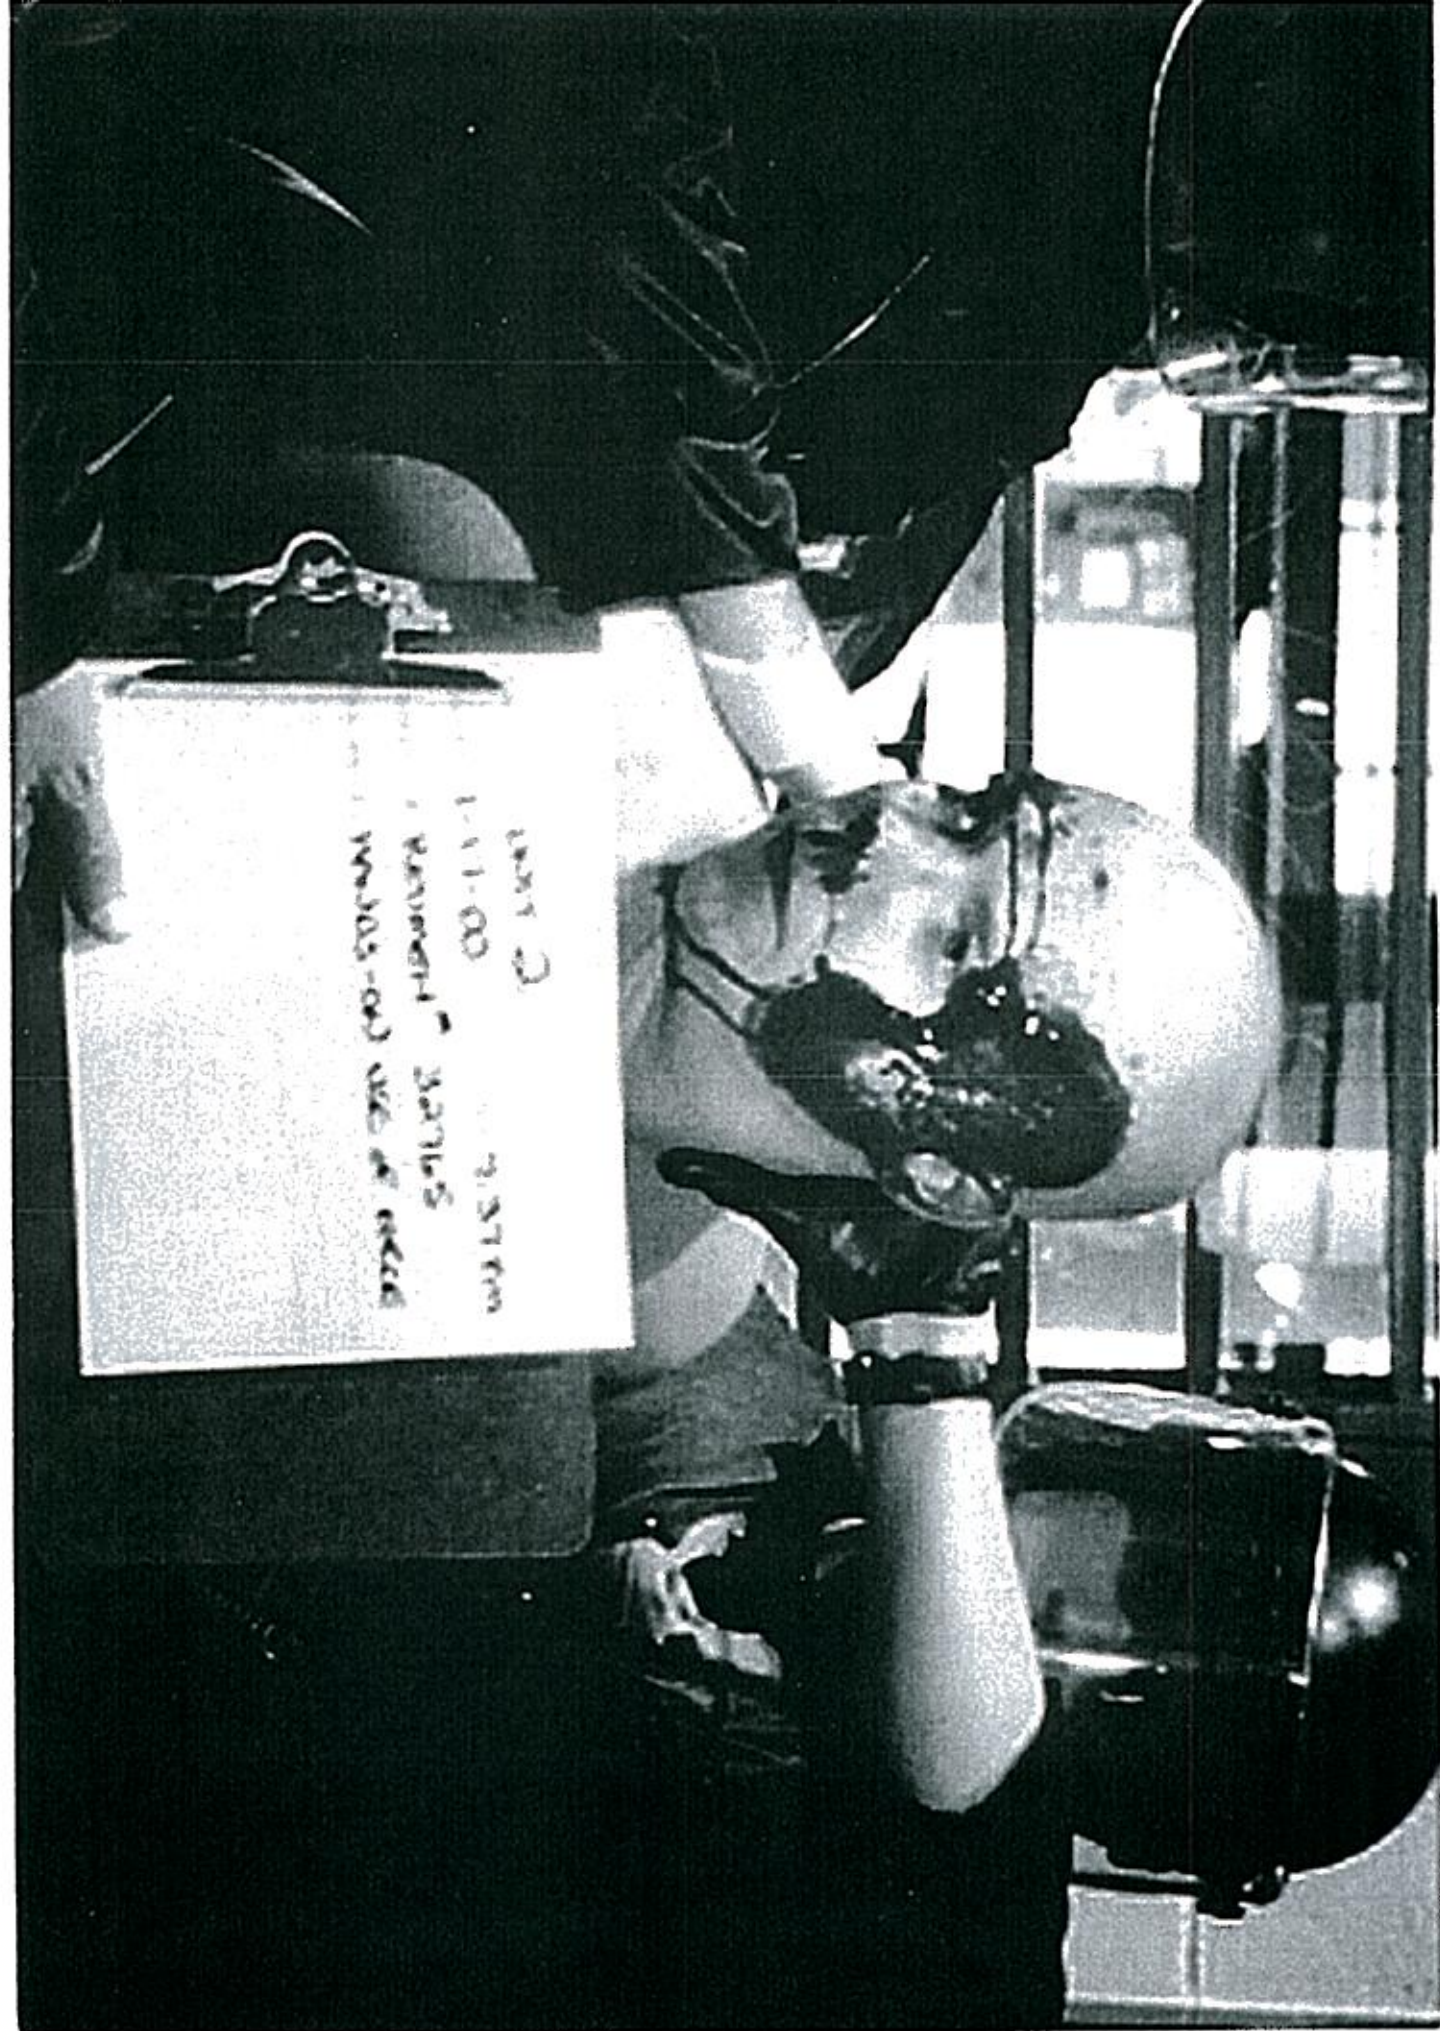

EXHIBIT 4

**League of Women Voters Las Vegas Valley
Criminal Justice Committee**

**Issues for the February Meeting
with the Honorable Catherine Cortes Masto
Nevada State Attorney General**

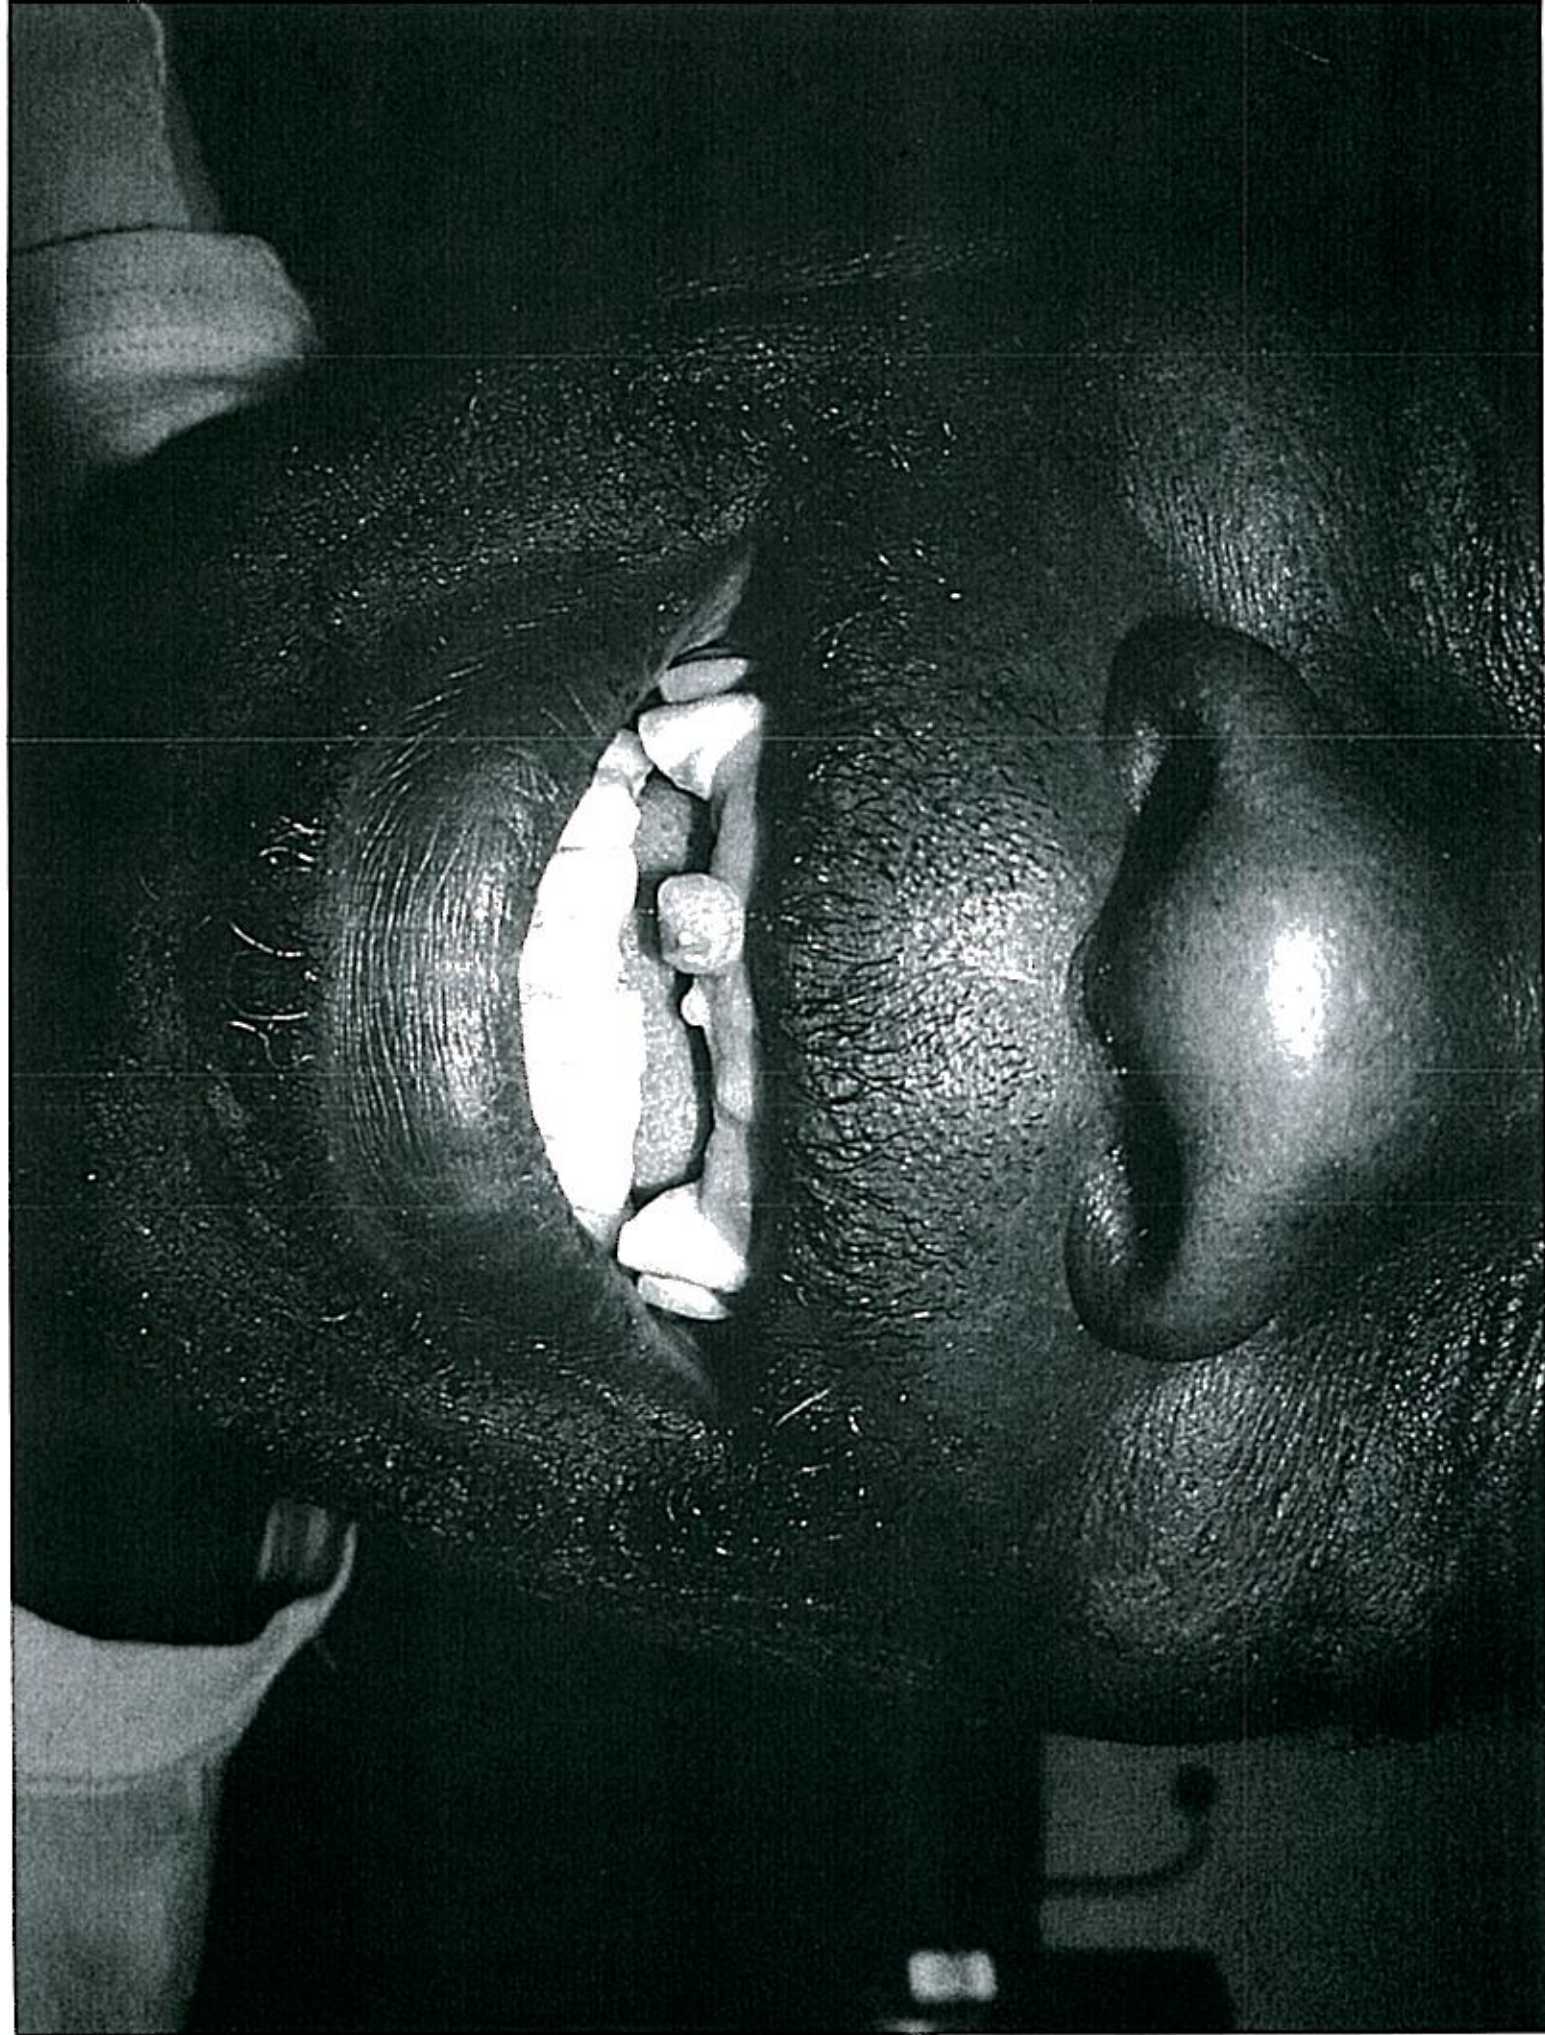

1. **Closing Camps – an alternative is to use these camps for job training and in keeping with President Obama's call for exploring alternative energy sources these could be demonstration projects for wind and solar farms.**
2. **Transitional Housing needs to be looked at. ie Casa Grande and the new facility that is proposed and recently approved by the Clark County Commission run by a private, non-profit. Casa Grande should be used for transitional housing with proper placements and not as an office for Nevada Department of Corrections (NDOC). We also need to look at the size of transitional housing – is it too big and just another institution or in reality a place where the residents feel like they are really ready to move into our communities? Siting should also be addressed.**
3. **We should have an accredited prison system so that checks and balances are in place. The State is attempting to decrease requirements and standards. We believe an audit is absolutely necessary!**
4. **AB510 – what happened to it? (a) There is no longer any DUI-Comp program. (b) Oasis has 300 inmates to 2 staff. (c) out-sourcing – Program at Casa Grande to Choices (a private company).**
5. **Too many offenders are being sent to prison. (a) Drug and alcohol/petty crimes – targeted programming for not less than three days a week and is a priority for their prison time, not as an after thought. Their parole should be tied to the completion of these programs with after care a priority. (b) Anger, deadly weapons, sex offenders. The same targeted programs as for drug and alcohol and petty crimes. Murder, etc – maintain**

6. **An independent Ombudsman who would handle complaints from prisoners as well as staff. There is no protection for whistle-blowers for either population.**
7. **Programs – we are not getting inmates ready to return to the community. There is no job training or job development.**
8. **What is the role of the Prison Board of Commissioners?**
9. **What is the role of the Board established under AB510 to oversee the prisons and what authority do they have or what actions can they take?**
10. **Healthcare- (a) dental care is shoddy at best (b) regular medical care is a problem**
